Jose Ramon Blanco Martinez

Senior Java Developer — Microservices & Cloud Specialist
+52 481-125-0406 | ramonblanco117@gmail.com | linkedin.com/in/jose-ramon-blanco-martinez |

Professional Summary

Senior Software Engineer with over 8 years of experience specializing in Java (8-21), Spring Boot, and Microservices architecture. Proven track record of delivering high-scale solutions for global companies like The Home Depot, Nike, Walmart and Citi. Expert in cloud-native development (AWS/GCP), containerization (Kubernetes/Docker), and modernizing legacy systems into high-performance architectures.

Technical Skills

Languages: Java (8, 11, 17, 21), Groovy, Python, SQL
Frameworks: Spring Core, Spring Boot, Quarkus, Flask, Apache Camel, Hibernate
Cloud & Devops: AWS (Lambda, EC2, ECS, S3, SQS, SNS), GCP (BigQuery, PubSub, Cloud Scheduler), Docker, Kubernetes, Jenkins, GitHub Actions
Architecture & Tools: Microservices, RESTful APIs, Design Patterns, Kafka, PostgreSQL, DynamoDB, Redis, Git, IntelliJ, Eclipse, Postman

Professional Experience

Grid Dynamics (Client: The Home Depot & Fiserv) — Senior Software Engineer August 2023 – Present
The Home Depot (Sourcing Core) *Remote*

- Architecting and maintaining critical inventory calculation engines that handle over 100K TPS during peak times using Java 21, SpringBoot, and Quarkus
- Managed containerized services in GCP using Kubernetes, leveraging BigQuery for high-volume data processing

Fiserv (Embedded Finance)

- Developed serverless banking solutions using AWS Lambda (Java 21) for card issuance, loan processing, and fund transfers
- Co-designed an entitlements application to secure and manage granular transaction permissions

Globant (Client: Taulia & Nike) — Senior Java Developer Mar. 2021 – Aug. 2023
Taulia *Remote*

- Optimized supply chain integrations using Apache Camel, Groovy, and Java 11

Nike (NCP)

- Maintained and migrated the Nike Communications Platform, scaling message delivery services using AWS SQS, SNS, DynamoDB, and EKS/ECS

Nike (Lexi V2)

- Engineered a greenfield translation and product-serving platform from scratch using Java 11, Gradle, and Amazon RDS (PostgreSQL) to support global internal and public stakeholders

Walmart GTS — Java Developer Apr. 2019 – Apr. 2021
Workforce Management *Mexico City/Remote*

- Architected and led the migration of the 'School Calendar' compliance system from legacy ETL to a Java-based architecture, automating labor schedule management for tens of thousands of minor associates across 5,000+ Walmart locations in the US
- Modernized "Schedule Export" from a batch-based process to a real-time streaming application using Kafka, Spring, and Azure SQL
- Collaborated on improvements for the Associate Interface, the primary workforce management tool

Anzen Digital (Client: Citi Banamex) — Java Developer Oct. 2017 – Apr. 2019
Business Bank/Banca Empresarial *Mexico City*

- Migrated Enterprise Banking modules (Dynamic Authentication, Transfers, Payments) from Edify technology to a modern architecture, implementing Continuous Delivery practices
- Transformed legacy personal banking monoliths into Microservices, developing core modules for user lifecycle management (CRUD)

Education

Instituto Tecnologico de Ciudad Valles — Ciudad Valles, SLP
Master Degree in Engineering — *Jul. 2023 – Jun 2025*

Instituto Tecnologico de Ciudad Valles — Ciudad Valles, SLP
Bachelor of Computer Systems Engineering — *Jul. 2011 – Jul 2016*
